

Report No. : EP081907

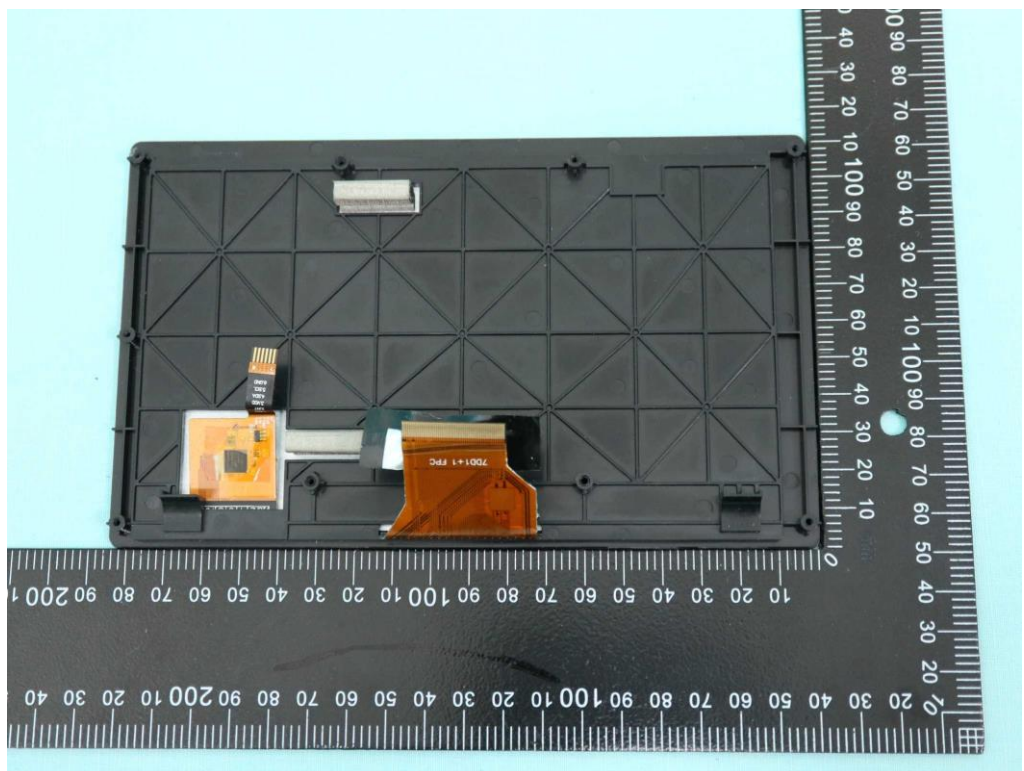

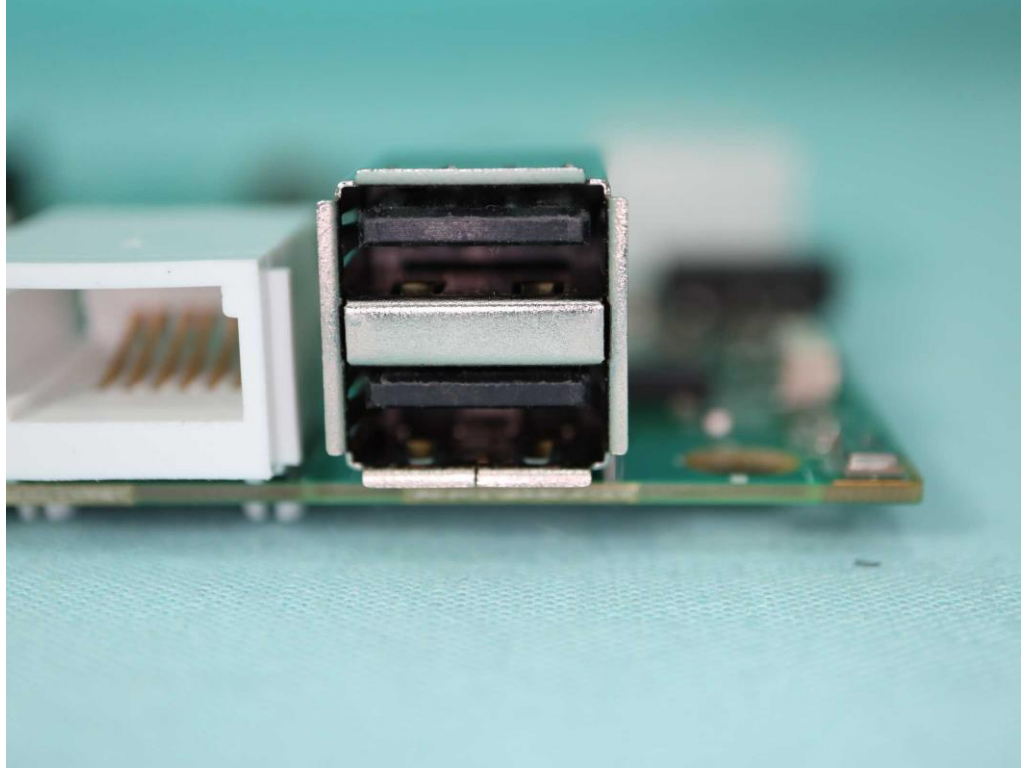

The image shows a disassembled LCD panel with its flex cables and connectors. The panel is white with a black border. Two orange flex cables are visible, one labeled '7001+1 FPC' and the other 'SRK12316-V7-XV'. A small white label with a barcode and text is also present. The panel is placed on a light blue surface next to a ruler for scale.
