Declaration on Electrically Identical Models

TO WHOM IT MAY CONCERN

We, Clarion Co., Ltd declare on our sole responsibility that the new model

JE-5031 with FCC ID: AX2JE5030 and IC: 419C-JE5030
is identical in hardware and software to the model JE-5030.

The only differences between the two models are:

- Model JE-5031 is equipped with an internal antenna.
Model JE-5030 is equipped with a RF connector for an external antenna.
- The appearance of the front cover differs slightly between the two models as shown in the submitted photos of these models.

Radiated emissions have only been tested for model JE-5030. In addition a MPE calculation document, which is part of this TCF, has been created to calculate the maximum permitted antenna gain in order to comply with the regulations.

Based on this, the submitted test reports are sufficient to show compliance of both models with the regulations.

If you have any questions, please feel free to contact us at the address shown below.

Sincerely,
