To Whom It May Concern:

Ericsson, Inc. would like to request that information included with the DCT1900 product description be supplied and listed with the Federal Communications Commission (FCC) as "Ericsson Confidential". Ericsson feels that the technology included in this application is company strategic and does not want this proprietary information disseminated within the telecommunications industry. The designs included within this product represent a significant technology investment by Ericsson, Inc. Included in this proprietary information: Portable Handset (schematics, block diagrams, equipment descriptions, and component assembly drawings), Radio Base Station (schematics, block diagrams, equipment descriptions, and component assembly drawings), and Central Control Fixed Part (schematics, block diagrams, equipment descriptions, and component assembly drawings). Ericsson understands the specific test results become public domain information.

Thank you for your time and assistance.

Sincerely,

Gerald Michalak
Director of Business Wireless Development
