ZT INSTALLATION GUIDE

FCC PART 15

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

SAFETY

This equipment has been Listed by Underwriters Laboratories and found to comply with all applicable requirements of the standard for Telephone Equipment UL 1459, 3rd edition.

Warning

Note to installers: In order to comply with the FCC RF exposure requirements ZT must be installed with a minimum separation distance of 20 cm from the antennas to the user or nearby persons.
Install on a secured mounting surface. Take care to attach unit securely.
This device may suffer damage if dropped.

ZT contains two antennas for diversity purposes, only one antenna transmits during normal operation.
