We are adding two new accessories, which is a battery shell with Part Number NNTN5332A and a body worn belt clip with part number NTN8266B. After retesting for RF Exposure with the new accessories, the highest reported SAR values to the Face increased from 4.87W/kg to 5.77W/kg and for the Body from 3.1W/kg to 3.61W/kg.

All other data on file with the FCC continues to be compliant.
