**Application for Class II Permissive Charge Request for the previously
Certified Transmitter with FCC ID: AZ489FT5804(XTS2500 Astro Digital
Portable)**

Dear Sir / Madam,

Motorola Inc., 8000 West Sunrise Blvd., Fort Lauderdale, FL, herein submits it's application for a Class II Permissive Change Request for the previously Certified Transmitter with FCC ID: AZ489FT5804.

Motorola is adding a new accessory which is a Public Safety Microphone (PSM) to the list of approved accessories for this device. With the addition of the PSM, the maximum calculated SAR value to the body increased to 5.56W/kg but is still compliant to the max limit of 8W/kg. All other SAR value measurements did not degrade.

All other data on file in the original filing at the FCC continues to be compliant.

Enclosed is a complete Class II P/C application. Contact me at (954) 723-5793 if you require any additional information.

Sincerely,

/s/ Mike Ramnath (signed)

Manager, Regulatory Compliance
