Att: Bruno Clavier

Re: Correspondence JOB 2376UC5 with FCC ID: AZ489FT5804.

Dear Mr. Clavier;

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, herein submits its response to the 28th November 2005 for information in Correspondence JOB 2376UC5.

Q1) This FCCID was originally granted in 2001. A class 2 permissive change was filed in September 2004. On September 2005, the FCC requested that applications for devices operating in the public safety bands 764-776 and 794-806MHz contain information showing compliance with applicable section of Part 90R. Please find attached a document with relevant sections of part 90R. Please provide additional information, comments, and/or justification as necessary.

R1) We complied to item 8 (Encryption) of FCC Rule Part 90r review guide provided. The other items are not applicable for this submission. Please note that this application was granted in 2001 and all we are doing is adding analog voice encryption, 20K0F1E, to the FCC Grant via a Class II Permissive Change.

Contact me at (954) 723-5793 if you require any additional information.

Sincerely,
/s/ Mike Ramnath (signed)
Manager, Regulatory Compliance
