

Exhibit 1. Identification Label -- Pursuant to 47 CFR 2.925, 2.1065 and 2.1033(c)11**1.1. Location**

Back side of the transceiver housing. (See the attached photograph 3.4 in exhibit 3)

1.2. Type

The label is a white polyester film laminate with a pressure sensitive adhesive backing. The adhesive is a permanent type acrylic with minimum peel strength of 5 lbs/in.

1.3. Markings (Text)

Figure 1-1: Enlarged view of the labels showing FCC ID and manufacturer type number

Exhibit 1A. General Information

1A.1. Production Plans

Quantity production is planned.

1A.2. Application References -- Pursuant to 47 CFR 2.948 and 2.1061

Reference is made to the following Motorola "Application References"

Hermon Labs, located in Binyamina Israel is listed with FCC and Industry Canada as follows:

1. FCC OATS registration number is: 90623
2. FCC Anechoic chamber registration number is: 13040/SIT 1300F2
3. Industry Canada OATS registration number is: IC 2186-1
4. Industry Canada anechoic chamber registration number is: IC 2186-2
5. Accredited by A2LA.

1A.3. Data Submittal Procedure

Data located in Exhibit 6 is supplied in accordance with Part 2, Sub-part J and Part 90, Sub-part I and Sub-part S of the Commission's rules.

1A.4. Similar, currently Type Accepted Transmitter

FCC ID: AZ489FT5800

1A.5. Additional Considerations

This transceiver can function as a Part 15.3(r) computer peripheral device when functioning as an RF modem when connected to a computer via a data cable accessory (ref: Exhibit 12.1).

In addition, this transceiver can function as a hand-held Part 15.3(k) computer executing application programs even when not connected to a companion trunked system base station control channel.

A Declaration of Conformity is provided in Exhibit 8 as evidence of compliance with Part 15 requirements for these additional Class B digital device functionalities per 47 CFR 15.101(a).

Compliance with Part 15 requirements for the superheterodyne receiver has been determined by verification in accordance with 47CFR15.1.
