Subject: Class II Permissive Change Request to add Hearing Aid Compatibility (HAC) to FCC Certified transmitter with FCC ID: AZ489FT5844, iDEN i850, i760, i560 and i450 with WiDEN and MotoTalk.

Gentlemen;

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its Class II Permissive Change Request to add Hearing Aid Compatibility (HAC) to FCC Certified transmitter with FCC ID: AZ489FT5844.

The grant for the subject FCC ID applies to the Motorola iDEN model number i850. Since the issuance of the grant cosmetic variations were designed as the model **iDEN i760, i560 and i450** that are currently mass produced and shipping under Class 1 Permissive Change approvals.

A sample of the **i850, i760, i560 and i450** was taken from stock and measured in accordance with industry standard procedures for HAC compliance. A report of the measurement data for each sample is attached. The measurement results were compared in the report with the field strength limits in Table 7.4 of the PC63.19-2001 rd 3.6 standard.

As a result Motorola herein declares that the **i850, i760, i560 and i450** model complies with the near-field strength technical requirements of FCC Rule 47 CFR 20.19.

Enclosed is a Cover Letter and HAC Compliance Reports for the above iDEN models.

Contact me at (954) 723-5793 if you require any additional information.

Sincerely,

/s/ Mike Ramnath (signed)

Manager, Regulatory Compliance
