Re: **Application for a Class II Permissive Change request to certificated transceiver with FCC ID: AZ489FT7008.**

Gentlemen:

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits a request for a Class II Permissive Change in reference to a transceiver marketed in the United States and elsewhere as the Enhanced PowerPad (e-Pad) Portable Data Terminal.

Prior to shipment to customers, modifications were made to the certificated device. Motorola re-measured the SAR values and determined that the values reported in the original grant application were degraded but still compliant with FCC RF exposure limits. All other data reported in the original filing remain compliant

Please contact me at (954) 723-5793 if you require any additional information.

Sincerely,

/s/Mike Ramnath(signed)

Manager, Regulatory Compliance
