Re: Application for a Class II Permissive Change request to Certified Transmitter with FCC ID: AZ489FT7010: X-Pad Model: F4423A.

Gentlemen:

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its request for a Class II Permissive Change for the above terminal.

The X-Pad Hand-held Data Terminal contains Bluetooth, WLAN and G20 transmitters.

The current FCC approval relates for two radios transmitting simultaneously, either BT and the g20 or BT and the WLAN. This Class II P/C application is for the three transmitters to be transmitting simultaneously. The operating configurations of the transmitters are controlled by software. There are no hardware changes implemented for the Class II P/C application.

The product testing was performed by Hermon Laboratories, which is listed by the FCC under Registration Numbers 90623 and 90624.

This Hand Held Data Terminal product continues to meet all FCC requirements when Equipment Authorization was originally granted.

Please contact me at (954) 723-5793 if you require any additional information.

Sincerely,

/s/Mike Ramnath (signed)

Manager, Regulatory Compliance
