Subject: Class II Permissive Change request for Certified transmitter with
FCC ID: AZ489FT7018, HC700G

Dear Sir or Madam:

Motorola Inc, 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, 33322 is requesting a Class II Permissive Change to the above Certified transmitter.

Motorola is adding a new antenna to the G20 transmitter. There are no other changes to the Hc700g transmitter. The changes are as follows for the new antenna.

- PIFA Dual Band 850/1900.
- 850MHz : -2dBi, antenna gain
- 1900MHz : +2dBi, antenna gain

Spurious Emissions and RF Exposure was re-measured due to the above changes and the RF Exposure results obtained were still compliant but exceeded those originally reported to the FCC. Thus, this change met the requirements for a Class II Permissive Change filing.

Revised Exhibit 6, 11, 12 and 2 are attached. This transmitter continues to meet all other FCC emission requirements for which Equipment Authorization was granted.

Contact Mike Ramnath at (954) 723-5793 if you require any additional information.

Sincerely,
/s/ Mike Ramnath (signed)
