Subject: Declaration of RF Exposure Assessment to FCC Authorized Transceiver with FCC ID:
AZ489FT7111

Dear Sir/Madam,

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

RF Exposure testing is not required since the modifications are strictly isolated to the Voltage-Controlled Oscillator (VCO) section. Because no changes or alterations were made to the transmitter circuitry, the original RF exposure evaluation remains valid, and additional RF exposure testing is not required.

The data continues to be compliant with the FCC limits.

Sincerely,

Khairul Azmy Zakaria
