Dear Sir/Madam,

A permissive change is requested for the subject transceiver, which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

Adding a new antenna (AN000471A01) with 0dBi gain. There is no change to the device APX N70 models that has been certified.

B. PERFORMANCE DIFFERENCES:

EMC Part 15B has been assessed, and no degradation was found. However, EME observed degradation as compared to the previous filing, but the data continues to be compliant with the FCC limits.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted.

Sincerely,

---
