Subject: Application for Class 2 Permissive Change to FCC Authorized Transceiver with FCC ID: AZ489FT7176

Dear Sir/Madam,

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

Adding new model variants to the family as listed below.

FCC Model Number	Product Marketing Name	Software Version (FVIN)	Descriptions
H35XDT9PW8AN	APX N70 XE	B06.00.09	APX N70 XE Single Band UHF Portable Radio, Model 4.5 (Green)
H35XDT9PW8AN-H	APX N70 XE	B06.00.09	APX N70 XE UHF Model 4.5 Portable (Green)
H35XDT9PW8AN	APX N70 XE	B06.00.09	APX N70 XE Single Band UHF Portable Radio, Model 4.5 (Black)
H35XDT9PW8AN-H	APX N70 XE	B06.00.09	APX N70 XE Single Band UHF Portable Radio, Model 4.5 (Black)

The radios referenced above share the same electrical design as the certified APX N70 models. The only difference in this variant is a minor mechanical change to the housing with bigger top display and knobs, which is now available in Green and Black colors.

B. PERFORMANCE DIFFERENCES:

EMC & EME has been assessed and the results observed degradation as compared to the previous filing but the data continues to be compliant to the FCC limits.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted.

Sincerely,

Arine Lee
FCC/ISED Certification Manager
