The image shows a Motorola APX NEXT handheld radio with its back cover removed. The radio is silver and black, with the Motorola logo visible on the top. The back cover is black and features three horizontal slots for buttons. The internal battery and circuitry are visible through the open back. The battery is a large, rectangular, silver-colored unit with a label that includes the Motorola logo and various technical specifications. The circuitry is a blue printed circuit board (PCB) with various components and a barcode. The back cover is placed to the right of the radio, showing its internal structure and the APX NEXT branding.
