Subject: Application for Class 2 Permissive Change to FCC Authorized Transceiver with FCC ID:
AZ489FT7184

Dear Sir/Madam,

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

To add a new model APX NEXT XE, which is electrically identical to the APX NEXT model, except cosmetic differences such as larger top housing knobs, different speaker grill and flexes, and the housing color. The new model are available in green and black.

B. PERFORMANCE DIFFERENCES:

EMC and RF performance have been assessed, and no degradation was found. While RF exposure testing indicated degradation compared to the previous filing, the data remains fully compliant with FCC limits.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted.

Sincerely,

Arine Lee
FCC/ISED Certification Manager
