Att: Mr. Frank Coperich

Re: Application for a Class II Permissive Change request to Certificated transceiver with
FCC ID: AZ492FT4786.

Gentlemen:

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its request for a Class II Permissive Change for the above transceiver.

Motorola Inc is requesting that the frequency range on the Grant of Equipment Authorization be extended from 450-512 MHz to 403-512 MHz. The extension of the frequency range was accomplished by software means and there were no hardware changes.

We are attaching Transmitter Radiated Spurious Emissions, Conducted Spurious Emissions, Transient Frequency Behavior and an Attestation Statement to confirm the performance within 403-512 MHz frequency range. All other data on file continues to be compliant.

Please contact me at (954) 723-5793 if you require any additional information.

Regards,

Mike Ramnath
FCC Liaison
