Re: FCC ID: AZ492FT5802
Grantee: Motorola, Inc.

Gentlemen:

Spectrum Technology, Incorporated has tested the above referenced transmitter in accordance with the applicable requirements contained in the Parts 2 and 90 of Title 47, CFR. To the best of my knowledge, these tests were performed using the criteria established in ANSI C63.4, 1992 or other Industry standards. The measurements demonstrate that the equipment continues to comply with the limits established in Part 90. The applicable rule sections are listed in the following test report.

The Open Area Test Site used for these measurements is located at Fluke Park II, Everett, Washington. Site information required by Public Notice 24541 in accordance with ANSI C63.4-1992 was filed with the FCC Authorization and Evaluation Division Sampling and Measurements Branch in July 1994 and most recently renewed in January 1998. This site is also on file with Industry Canada and has been assigned the file

Sincerely,

A handwritten signature in black ink that reads "Rod Munro". The signature is fluid and cursive, with the first name "Rod" being more prominent.

Rod Munro
President
Spectrum Technology, Inc.
