Subject: Application for Class 2 Permissive Change to FCC Authorized Transceiver with FCC ID: AZ499FT7183

Dear Sir/Madam,

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

This filing introduces the PMPN5057A single unit charger as an accessory for the V200 series Body Worn Camera (BWC), with no changes made to the existing certified V200 hardware. PMPN5057A utilize an external Switch-Mode Power Supply (SMPS) to provide power to the V200 camera series.

B. PERFORMANCE DIFFERENCES:

EMC observed degradation at WIFI 2.4GHz as compared to the previous filing but the data continues to be compliant to the FCC limits. For RF exposure, the lab SME has been assessed as low risk and no testing is required.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted.

Sincerely,

Jasmin Jefry on behalf of Arine Lee
FCC/ISED Certification Engineer
