Full Duplex Wireless

SLT2400 User's Manual

Features

- Hands-Free Full Duplex 2-Way Radio
- State-of-the-Art 2.4GHz Technology
- No License needed and Maintenance Free
- Crystal Clarity, up to Half Mile Away
- Easy to Operate, User Friendly Personal Communicator

Operation

1. Antenna
2. Battery Low / Charge Indicator
3. Channel and Status Indicator
Standby Mode = Red
Talk Mode = Green
Communication Mode = Amber
4. Talk Button
5. Headset Socket
6. Belt Clip
7. ON/OFF – Volume Control Knob
8. Charger Socket
9. Channel Dip Switch (Inside Battery Compartment)

How to Operate

- a) Plug Headset Jack into “Headset socket”
- b) Turn the Volume “ON”
- c) Set both units on the same channel
- d) Press Talk button to communicate
- e) The microphone built-in Headset must close to mouth as much as possible to obtain better effect

How to Charge Battery

- a) Turn Walk Phone “OFF”
- b) Plug Charge Jack into “Charger socket”
- c) Plug Charger Adapter into an AC Outlet
- d) The battery charger is Fast charge system; the walk phone will not be damaged, even left it on the charger for more than 6 hours, but don't charge longer than 12 hours. A fully charged battery is capable of operate (transmitting and receiving) continually up to 4.5 hours, working in and out from a standby mode will last for 8 hours.

Frequency Modulation

PLL Frequency Synthesizer

4.8 Volt Ni-MH Rechargeable Battery, 700mAH

Standby (70mA) ~ 10 hours; Communication (150mA) ~ 5 hours

150mA/hours fast; 6 hours for full charge

TRANSMITTER

Output 50mV/m (FCC Part 15)

Deviation 30KHz/± 10KHz

Modular Distortion < 5%

Spurious Radiation > 50 dBC

RECEIVER

Sensitivity < -100dBm @12dB SINAD

IF Bandwidth 180KHz

Image Rejection > 60 dB

Operating Temp -10 to +40°

Switches Off/ Volume; Channel Selection; Full/Standby

Antenna internal

FCC ID: B4HSLT2400
MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

"Modifications not authorized by the manufacturer may void users authority to operate this device"
