Requesting permissive change

To Whom It May Concern:

The purpose of this letter is to request a Permissive change for

FCC ID: B94-MT7922A22MM, Original grant date: December 15, 2021 for DSS/DTS/NII and
March 5, 2026 for 6CD/6VL

The major change filed under this application is :

1. The subject approved module is being used in a new host (product: Notebook PC, Model: TPN-C182).
2. SAR Testing is performed to demonstrate RF Exposure Compliance.
3. The hardware design of this transmitter that may affect compliance, remains unchanged in this permissive change application.
4. The RF parameters of this transmitter that may affect compliance, remains unchanged in this permissive change application.
5. Disable Low Power Indoor Client mode via software.
6. The security mechanism according to section II of KDB 594280 D02 is remained unchanged as it reported to the FCC at the initial certification.
7. Add a new antenna of the same type; after comparing its gain value with the originally certified one, confirm that it is lower, yet still higher than the antenna gain used in the CBP test.

Sincerely,

A handwritten signature in black ink, appearing to read 'Blue Yang'.
