Requesting permissive change

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for
FCC ID: B94-MT7925B22ME, Original grant date: December 18, 2024

The major change filed under this application is :

1. The subject approved module is being used in different host (Portable category Configuration, Host Brand: HP, Model: TPN-W173 / TPN-W174).

The difference for the host model is CPU manufacturer difference only it does not affect RF characteristics.

TPN-W173: Intel Platform,

TPN-W174: AMD Platform.

2. SAR full Testing has been provided to ensure RF Exposure Compliance for TPN-W173. SAR spot-check testing has been performed for TPN-W174 to demonstrate RF Exposure Compliance.
3. The RF parameters of this transmitter that may affect compliance, remains unchanged in this permissive change application.
4. Evaluations have been conducted to ensure compliance with EMC requirements.
5. The security mechanism according to section II of KDB 594280 D02 is remained unchanged as it reported to the FCC at the initial certification.
6. Add a new antenna of the same type; after comparing its gain value with the originally certified one, confirm that it is lower, yet still higher than the antenna gain used in the CBP test.

Sincerely,

A handwritten signature in cursive script that reads 'Jim Chang'.

Jim Chang / RF Manager
SGS Taiwan Ltd.
