Ref: Application for Original Equipment Authorization for FCC ID: B94TNQ250HPKVD.

Dear Examiner,

This is to request FCC Authorization for original equipment under FCC ID: B94TNQ250HPKVD.

The equipment in this application is HP model TPN-Q250 PC has been granted the 12/08/2021.

The equipment also include two previously authorized transmitter modules as described below.

FCC ID: PD9AX201D2 , originally granted 11/20/2018. This is a WLAN 802.11a/b/g/n/ac/ax module that is authorized for portable/mobile conditions.

FCC ID: ZMOFM350GL, granted 04/09/2021. This is a PCS licensed transmitter LTE module authorized as single modular approval to Fibocomm Wireless.

Our intention is to apply the PAG re-use process for granting approvals. The full PAG review was previously performed under KDB 402481. We believe this application meets the conditions for PAG re-use as it is a special rf exposure compliance condition. The exact same WWAN authorized modules are re-used in this PC with the exact same algorithm and validation methods for time averaging SAR as approved in KDB 402481.

Antenna specifications for these modules are included within this filing.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steven C. Hackett'.
