

A black and white photograph showing the internal components of a PA3-2AB-AIR electronic device. The device is housed in a metal chassis. On the left side, a label with the text "PA3-2AB-AIR" is visible. The internal components include several vacuum tubes, capacitors, and various electronic components mounted on a printed circuit board. A large, coiled spring is visible in the center. The overall appearance is that of a vintage electronic assembly.
