Columbia, MD 21046

To Whom It May Concern,

The chip BCM4343W installed in our product WLAN Module (model name: R-1FJ ,
FCC ID: BBP-WL1FJ01), which are supports Bluetooth and 2.4G Wi-Fi functions . But for
the product, it only activates 2.4G Wi-Fi function. the Bluetooth function is disabled by using
the software.

Sincerely,
