To whom it may concern

We, **Apple Inc.**, are applying for an FCC grant for a **Single Certification** of the device:  
**Apple TV 4K.**

The **Apple TV 4K**, Model **A2169** is a digital media receiver designed to play internet content onto a TV through a HDMI port. It incorporates IEEE 802.11a/b/g/n/ac/ax, Bluetooth radio and IEEE 802.15.4 Thread.

The product has been tested against CFR 47 parts:

- 15B
- 15C
- 15E

The measurement facility is on file with FCC under the US-EU MRA, with designation number **UK0010**.

Yours faithfully,

Stuart Thomas
