

Attention: FCC Office of Engineering and Technology

Subject: Justification for Part 15 Antenna Test Report

Dear OET Staff,

The filing for this equipment code does not require an antenna gain test report or antenna gain specification sheet because only radiated measurements are used to show compliance with FCC limits for fundamental and spurious emissions. Antenna gain is not used to determine compliance with Part 15 rules for this equipment code.

Internal photos and supplemental proprietary information have been provided to clearly identify the antenna(s) used for this equipment code.

Regards,

Mark Briggs
Director, Wireless Certification Services
UL Verification Services
