Subject: Regarding AD600 documents
Importance: High

Hello Everyone,
Thank you for your cooperation!
Please see the statement below.
Thank you!

※ The statement for AD600

- I confirm AD600 doesn't support LTE now and just supports 2G & 3G capabilities.
Please progress FCC certification for AD600 without LTE.
Even though the documents mention the LTE capability, current AD600 doesn't support LTE.
Please use the documents I sent for 2G & 3G capabilities only.

Best regards
Han.
