Subject: Re : Questions Regarding FCC ID: BEJBL20

Hello PCTEST TCB,
Thank you for your e-mail.
Please see below response and find the attachments.
After checking them, please send me the grants without any problem.
Thank you!

Best regards
Han.

Subject : Questions Regarding FCC ID: BEJBL20

To: Ms. Sun-Hee Kim / HCT
From: Mr. Gregory Czumak / PCTEST TCB

RE: FCC ID: BEJBL20

Applicant: LG Electronics Inc.

Correspondence Reference Number: BEJ90984
Confirmation Number: 908140984-86
Date of Original Email: August 19, 2009

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The licensed transmitter block diagram does not list the clock/oscillator values, as required. Please revise and resubmit.
→ Please find the attachment.
2. Please submit a more detailed block diagram of the RF section of the BT transmitter.
→ Please find the attachment.
3. Please submit an operational description that describes the RF section of the BT transmitter.
→ Please find the attachment.
4. Please submit schematic diagrams for the BT transmitter.
→ I added the circuit diagram on the BT operational description.
Please find the attachment.
5. Page 2/16 of the Operational Description states that GSM850 operation is supported, however, there is no test data for this band. Please address.
→ The Main chipset supports GSM850, but the EUT doesn't support GSM850.
6. FYI: in the future, please submit a higher resolution copy of the SAR probe calibration report (the conversion factor frequencies and values are difficult to read in the copy submitted with this application). → I'll provide the clear copy of the SAR probe calibration for further models.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
