Subject: [Questions Regarding FCC ID: BEJGB125R](#)

To: Ms. Sun-Hee Kim / HCT
From: Mr. Gregory Czumak / PCTEST TCB
RE: FCC ID: BEJGB125R

Applicant: LG Electronics Inc.

Correspondence Reference Number: BEJ91548
Confirmation Number: 912291548
Date of Original Email: December 30, 2009

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The FEM section of the Operational Description document indicates that the EUT supports GPRS Class 12 multi-slot operation capability but the testing of this functionality is not included in the SAR test report. Please address.

→ The EUT doesn't support GPRS class 12 multi-slot operation capability.

2. The measured Cellular band GSM output levels listed in the SAR report are all in the lower half of the target range listed in the tune-up procedure. FCC policy dictates that they should be in the upper half of the acceptable range. Please address.

→ Please find the attachment.

FYI: In the future, please do not include verified receiver test data in the Certification test report.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
Senior Certification Engineer
Quality Manager
