RE: FCC ID: BEJGS500

Applicant: LG Electronics Inc.

Correspondence Reference Number: BEJ0011
Confirmation Number: 1Y1001040011-13

Date of Original Email:

January 8, 2010

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The Operational Description document lists WCDMA and GPRS EUT capability. Please confirm that these are not implemented in the EUT. → [This EUT doesn't support WCDMA capability but it supports GPRS/EDGE capability.](#)
2. The BEJGS500_OTH_01042010_0347451.pdf document indicates a 7mm distance between the Bluetooth and Licensed antennas but the SAR report indicates that this distance is 1.0 cm. Please reconcile.
→ [Please find the revised SAR test report.](#)
3. The schematic diagrams indicate WCDMA Band 2 and Band 5 EUT capability. Please confirm that this capability is not implemented in the EUT and if it is, please provide the appropriate test data.
→ [This EUT doesn't support WCDMA bands.](#)
4. The internal EUT photos provided in the BEJGS500_INP_01042010_0358463.pdf document do not have all the RF shielding removed from the daughter pc board. Please remove these shields and provide photos per CFR 47 Part 2.1033(c).
→ [Please find the revised internal photos.](#)

Note: The test configuration for the 15B certification testing should place the laptop power supply at 10 cm from the laptop (per CFR 47 Part 15.107).

FYI: In the future, please supply all EUT test positions in the test photos for the Bluetooth testing.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
