 **WARNING:** Putting a heavy object on the phone or sitting on it can damage its LCD and touch screen functionality. Do not cover the proximity sensor with a protective film or cover. It can cause the sensor to malfunction.

Installing the SIM and battery

1 Remove the battery cover and the battery

Slide down the battery cover and pull out the battery.

WARNING: Do not remove the battery when the phone is switched on, as this may damage the phone.

2 Install the USIM card

Slide the USIM card into the USIM card holder. Make sure the gold contact area on the card is facing downwards. To remove the USIM card, gently pull it outwards.

3 Install the battery

Insert the top of the battery into the top edge of the battery compartment first. Ensure that the battery contacts align with the phone's terminals. Press the bottom of the battery down until it clips into place.

Charging your phone

Slide back the cover of the charger connector on the side of your GS505. Insert the charger and plug it into a mains electricity socket. Your GS505 must be charged until the “Battery full” message appears on the screen.

NOTE: The battery must be fully charged initially to improve battery lifetime. Disregard the first “Battery full” message and keep the phone on charge overnight (or for up to 14 hours).

Memory card

Installing a memory card

You can expand the available memory space on your phone by using a memory card.

NOTE: A memory card is an optional accessory.

Slide the memory card into the slot at the top, until it clicks into place. Make sure the gold contact area is facing downwards.

WARNING: Slide into the memory card to the slot, otherwise, the card can be damaged.

Formatting the memory card

Your memory card may already be formatted. If it isn't, you will need to format it before you can start to use it.

NOTE: All files get deleted while formatting.

- 1 From the home screen select  and choose **Phone settings** from the SETTINGS tab.
- 2 Scroll and touch **Memory manager** then scroll and select **External memory**.
- 3 Touch **Format** and then confirm your choice.

- 4 Enter the password, if one has been set. The card will then be formatted and ready to use.

NOTE: If there is existing content on your memory card, the folder structure may be different after formatting since all files will have been deleted.

Transferring your contacts

To transfer your contacts from your SIM to your phone:

- 1 From the Phone tab, scroll to **Contacts** and select  then **Change location**.
- 2 Touch **Copy to Handset**.
- 3 Choose **Mark all** or select names one by one and touch **Copy to handset**.

Using the RSS reader

RSS (Really Simple Syndication) is a family of web feed formats used to publish frequently updated content, such as blog entries, news headlines or podcasts. An RSS document, called a feed, web feed or channel, contains either a summary of content from an associated website or its full text. RSS makes it possible for people to keep up-to-date with their favourite web sites in an automated way that is easier than checking manually.

The user subscribes to a feed by entering its link into the reader or by clicking an RSS icon in a browser that starts the subscription process. The reader checks the user's subscribed feeds regularly for new content and downloads any updates that it finds.

Accessing a saved page
