Charging HBM-700

Please ensure that your new HBM-700 is fully charged before your initial use.

1. Open the Charging port cover on the side of the HBM-700.
2. Plug the charger into the Charging port outlet.
 - The "Charging" message appears at the LCD indicator of the Headset when it is charged properly.
 - The "Charging completed" message appears at the LCD indicator of the Headset when it is full charged.
 - It takes about three hours to fully charge the HBM-700.
 - If the LCD indicator shows "Pls try again", check whether the charger is plugged properly into the Headset.

Hint The sign "Low Battery" appears and the battery icon blinks on the LCD when the battery is low. Also, the warning noise will beep every thirty seconds when the HBM-700 needs to be recharged.

- Always use the charger that comes with the HBM-700 or that is authorized by LG Electronics Inc. Beware that other unauthorized chargers may cause explosions or breakdown of the product.
- Long term use of the product may decrease the battery life.
- Unplug the charger from the wall socket. Remove the HBM-700 from the charger when the battery is fully charged.

Power on

In order to turn the HBM-700 on, press the ON/OFF button located on the right side of the product for at least 2 seconds. You will hear beep sound and see the message "LG Electronics" at the LCD indicator when the power is on.

Hint • For longer use of the battery, the LCD automatically turns off when no action is made in one minute. Press any button in order to turn the LCD indicator on.
• Beware that any button pressed is disregarded when the LCD indicator is off. Press once more in order to activate the function properly.

Power off

In order to turn the HBM-700 off, press the ON/OFF button located at the right side of the product for at least 2 seconds. You will hear beep sound and see the message "Power off" at the LCD indicator when the power is off.

How to USE HBM-700

Registering HBM-700 to Bluetooth Handset (Bluetooth Pairing)

Before using your Headset for the first time, you must pair it with another Bluetooth device, such as a mobile phone.

1. Place the LG Bluetooth Headset HBM-700 in Pairing Mode.
 - Pairing Mode is automatically activated when you turn the product on for registering.
 - Also, Pairing Mode is activated when you turn the power on. Press the C(Clear) button for at least 5 seconds.
2. Set your LG Bluetooth Headset HBM-700 to "discover"
 - Refer to the instruction guide of your phone and search for the Bluetooth Device.
 - This usually involves going to a "set up", "connect", or "Bluetooth" menu on your phone and then selecting the option to "discover" or "add" a Bluetooth device.
3. Your phone will find "HBM-700"
 - You will be prompted to accept the pairing by pressing "YES" or "OK" on the Handset and to confirm with the passkey or PIN4=0000(4 Zeros). You will receive confirmation when pairing is completed.
4. Your phone will be paired with the LG Bluetooth Headset HBM-700.
 - "Connected" message appears at the LCD indicator on the Headset, when the Pairing is completed.

How to USE HBM-700

- "Pairing" message appears at the LCD indicator of the Headset when Pairing Mode is activated.
- In order to cancel Pairing Mode, press the C(Clear) button for at least 5 seconds.
- Pairing with another Bluetooth device is necessary only for the first time the HBM-700 is used. No other registering is needed unless the registration of the Handset is deleted.
- If the HBM-700 has been already paired with your current Bluetooth Handset, it will automatically connect with the Handset when the HBM-700 is turned on.
- The HBM-700 automatically disconnects the Handset when two devices are out of range. To turn the HBM-700 on, place the Handset near the HBM-700 and press SEND button briefly. For more information regarding the connection, refer to the instruction guide of the Handset.

Adding multiple Bluetooth mobile phones

- The LG Bluetooth Headset HBM-700 stores maximum 3 different Handset registrations in
- If you add a 4th Handset, the LG Bluetooth Headset HBM-700 will automatically remove the registration information of the first stored or the least used Handset.
- When you want to change the priority of the Handset, try to connect manually from the Handset.

Answering a call

Press "Send" to answer a phone call.

- The phone number is indicated on the LCD indicator and a bell rings when you receive a call.

Hint

- Aware that the phone number is indicated on the LCD indicator only when you have registered the CID service.
- Beware that not all Handset Models support CID function.

Making a call

Press the phone numbers and press "Send" button to make a call.

Hint

- For "*" or "#" symbols, press "9" or "0" respectively for at least 2 seconds.
- Press "Clear" button to erase the phone number. One number will be erased at a time.
- Press "End" button briefly to erase the phone number. All number will be erased at a time.

Redialing to the latest phone number

Press "Send" button for at least 2 seconds in order to redial to the latest phone number.

Making a phone call by using the Short-Dial function

Insert at least one-digit number which is registered and press "Send".

Ending a call

Press "End" button to end a call when it is over.

Call waiting

Press "Send" button briefly in order to answer a second call without hanging up the first call.

- Press "Send" button once more to return to the first call.

Rejecting a call

Missed a call

"Missed call" message appears at the LCD indicator when you have missed a call.

Press "Send" button to check the CID. Press "Send" button once more in order to connect to the missed call.

Hint

- Beware that only the latest missed CID is indicated at the LCD indicator.
- This function is available only to Bluetooth Handsets which support this function.

Voice Recognition

Press "Send" button briefly in order to activate Voice recognition.

Press "Send" button briefly once more in order to deactivate Voice recognition.

Hint

- Voice recognition function is available only to Bluetooth Handsets which support this function.
- Refer to the instruction guide of your phone to use this function.

Volume control

Press the "Volume Up" or "Volume Down" to increase or decrease the speaker volume.

Microphone volume control / Mute function

The Mic Gain status is indicated such as 'Mic Gain:3' at the LCD indicator when you press C(Clear) button for at least 2 seconds.

Press Volume control button (Up/Down) to select the Mic Gain status. There are six stages of the Mic Gain; Mute, 1, 2, 3, 4, 5.

Transferring a call

Press "Send" button for at least 2 seconds to transfer a call from the Handset to the HBM-700, and vice versa.

Using a earphone

1. Open the earphone jack cover.
2. Insert the earphone jack plug to the earphone jack of HBM-700.
3. No other additional keys are required during a telephone call.

Hint

- Use the 2.5Ø, 3-pole type earphones to connect with the HBM-700. Beware that no functions of the buttons attached to the earphone are available.

Hold switch

All functions of the buttons are locked when slipping the "Hold" switch upwards. The "Hold" switch is located on the right side of the HBM-700.

Hint

- Place "Hold" switch to hold position when HBM-700 is not used.
