RE: FCC ID: BEJKE820_ATCB003666

Attention: **SUNG RYUL KIM**

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please provide the operational description for this application.
2. Please note that the FCC prefers that both the highest head and body SAR be listed in the manual. Please also note that while the highest SAR for the EU have been placed in the manual, the highest SAR for the US has not. Please provide a manual that adequately addresses SAR in accordance with OET65C and IEEE1528 for the USA.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
