RE: LG Electronics

FCC ID: BEJKG920

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) In addition to the block diagrams already presented, kindly provide a Block Diagram specific to the Bluetooth transceiver.
- 2.) Please provide an Operational Description specific to the Bluetooth transceiver.
- 3.) With regards to Confidentiality, the Commission is in the process of tightening the process for which both permanent and short term Confidentiality is acceptable. You will either need to have as signatory on Form 731 the same individual listed as the contact person associated with the Grantee code (for this case BEJ), or you need to supply an agent authorization letter allowing ESTech to act on behalf of LG electronics. Please choose. If you have additional questions with regards to Confidentiality, do not hesitate to call me directly.
- 4.) No Manual has been provided. Please do so at your earliest convenience.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
