RE: FCC ID: BEJLST270_ATCB003221
Attention: Jay Kim

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the equipment code for this type device should be TNB and not TNE. TNE would be a device held to the ear while TNB would be a mobile device. As this is a mobile device, please correct the 731 form to show TNB on the 731.
2. Please note that as this is a mobile device with a 'removable' antenna connection, the power listed on the grant would typically be the conducted power not the ERP power. Please note that the conducted power that should be on the 731 is 252mW. Please correct the 731 to be in line with this type device.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
