RE: FCC ID: BEJM6100_ATCB003140
Attention: Jay Kim

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that operational description indicates that this device can operate in the GSM85 US bands. Please provide a corrected operational description of a GSM900/1800/1900 phone or please provide the necessary test data and other documentation to support GSM850 operation.
2. Please note that only the end result is provided for EIRP values of the fundamental. How was this value determined (i.e. what was the signal generator drive level, what was the gain value of the substitution antenna etc)? Please provide the factors used to determine EIRP on page 6 of the report.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
