Date: **March 25, 2011**

PCTEST TCB/CB
Div. of PCTEST Engineering Lab., Inc.
6660-B Dobbin Road,
Columbia, MD 21045

SUBJECT: LG Electronics USA
FCC ID: BEJP925

To whom it may concern:

We, LG Electronics USA, confirm that the purpose of the power reduction for Mobile hotspot is to meet LG internal SAR limit.

When Mobile hotspot mode is activated, power reduction is applied until Mobile hotspot is deactivated by the user with no exception.

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Chris Johnson'.

Christopher Johnson
Senior Manager
LG Electronics USA
