SUBJECT: Requesting Class II permissive change
FCC ID: BEJP930
(Original Grant day: 10/11/2011)

To Whom It May Concern:

The purpose of this letter is to request class II permissive change on previously certified model LG-P930(FCC ID: BEJP930). The BEJP930 was previously certified with GSM850/1900, WCDMA850/1900, LTE band 4 and 17.

We would like to revise SW firmware to use LTE bandwidth 15 MHz in LTE Band 4. This firmware is set at the factory and it can not be changed by 3rd party or end-user. Except this change, the design, hardware and implementation are exactly same with original.

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Johnson'.

Christopher Johnson
Senior Manager
LG Electronics USA
