RE: FCC ID: BEJRD2330_ATCB001993
Attention: Jay Kim

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the 731 form says this is a PCE. Please note that equipment code PCE is for devices subject to Part 24. As this is only a Cell Phone under Part 22 PCE is not an appropriate equipment code. Please correct the 731 to provide the proper equipment code for this device. Cell Phone devices such as this operating under part 22 are TNE devices. Please correct the 731 form to show the proper equipment code or please explain why PCE was used.
2. Please note that the SAR report does not specify if the power measured in the device is WRP or conducted. Please clearly identify the method used to determine the maximum power settings of the device. Please insure that the same method used in the SAR report is the same as used in the EMC report so that a comparison in accordance with 1528 can be done.
3. Please identify the units of measurements for the distance stated in the table of Body Worn SAR summary on page 3 of the SAR report.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
