

American Telecommunications Certification Body Inc.
6731 Whittier Ave, McLean, VA 22101

August 18, 2004

RE: LG Electronics Inc.

FCC ID: BEJRU50PZ61

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) For external photographs, please provide additional photograph(s) as necessary to show the interface connectors.
- 2) Please move the 3rd photograph for external photos showing the back removed to the internal photograph exhibit. Please provide corrected external and internal photographs because of this.
- 3) Component values on the schematics could not be read. Please provide a higher resolution schematic where the component values are readable.
- 4) The device is capable of many different resolutions and refresh rates. These different resolutions and rates must be investigated to determine worse case (Page 15 of the users manual shows various resolutions possible). Worse case does not always occur at the highest resolution. Was this investigation performed? If not, how can worse case data be assured?
- 5) What was the final resolution/refresh rate for the worse case mode of operation.
- 6) Conducted data on 158 kHz exceeds the average limits. Average data should be provided.
- 7) Please fill out the following information on the 731 form:
 - a) section IV – Part 2(a)
 - b) section III – Part 4(a) should be JBP – Computer Peripheral Device
 - c) section III – Part 4(b) should be Part 15

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
