Subject: Application for certification on LG Electronics Microwave Oven

FCC ID: **BEJS201XF**

Model Nos.: MS-204Yd

Magnetron: 2M246 (LG Electronics Inc., Korea)

2M248J (Toshiba Hokuto Electronics Corp., Japan)

Gentleman:

We, LG Electronics Inc., hereby submit this application letter to apply for FCC Certification for the subject new models. For your references, here is the following information.

1. The model MS-204YD is new model to be produced by LG Electronics Inc.
2. The model MS-204YD is to be installed on the counter-top and has touch control panel.
3. The model MS-204YD employs the turntable on the lower side of oven cavity for even cooking.
4. The above model is for household use.

We have performed the relevant tests using the representative Model MS-204YD with LG Electronics Magnetron Type 2M246 and Toshiba Hokuto Electronics Magnetron type 2M248J at our laboratory as enclosed.

No out-of-band frequency measurement and over-limit radiated emission was discovered.

Your continued cooperation would be highly appreciated.

Should you have any comments, please feel free to contact Mr. K. S. Kim at LG Electronics Chicago Office.

Best Regards,

B. H. Kim, Team Leader
