

## Cover Letter-Modular Approval

**FCC ID: BEJTM05NNNABM0**

**Date: 06 August 2021**

Gentlemen:

There's a Cellular Module that would like to have your authorization as a modular approval. The specific product as below, Cellular Module, with its designed features and specified description, meets special requirements for full modular approval on Requirement of FCC KDB996369 by cross-reference list below.

|              |                     |
|--------------|---------------------|
| Company      | LG Electronics Inc. |
| Model Name   | Module              |
| Model Number | TM05NNNABM0         |
| FCC ID       | BEJTM05NNNABM0      |

|                                                                                                                                                                                                                         | Comply(Y/N) |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly;                          | Y           |
| b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal;                                                                  | Y           |
| c) The module must contain power supply regulation on the module;                                                                                                                                                       | Y           |
| d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b); | Y           |
| e) The module must contain power supply regulation on the module;                                                                                                                                                       | Y           |
| f) The module must demonstrate compliance in a stand-alone configuration; 6) The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748);           | Y           |
| g) The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee;                                                  | Y           |
| ) The module must comply with RF exposure requirements (see Clause V below).                                                                                                                                            | Y           |

Thank you.  
Sincerely,

By:
