Subject: Request for Confidentiality in Our October 20, 2000 Cover Letter for Class II Permissive Change for Cellular Telephone Transceiver

Gentlemen:

Our letter dated October 20, 2000 requested confidentiality for the following items in the subject application:

- External Photos
- Internal Photos
- Schematics

Your e-mail dated November 1, 2000, explained that it is not possible for external photos to be given confidentiality. We realized our error when we tried to check the "confidential" box for external photos in the electronic filing form, but our cover letter had already been submitted.

We would like to withdraw our request for confidentiality for *External Photos*.

However, we would still like to request confidentiality for *Internal Photos* and *Schematics*.

Thank you for your attention to this matter.

Very truly yours,

Joseph G. Vollmer
