

5. Measurement Data For Transmitter {2.983(e)}

The following table shows the attached measurement data of the Transceiver Unit and the measurement methods employed.

Table 5.1 Measurement Data List

Sect. No.	Item	Result	Method
2.985(a)	1.Radio Frequency Power Output	Tables 1,2 and 3	6.1.1
2.989(c)(1)	2.Occupied Bandwidth	Figures 1- 9	6.1.5
2.991	3. Spurious Emissions at Antenna Terminal	Tables 4- 12	6.1.6(1)
2.993	4.Field Strength of Spurious Radiation	Attached Booklets	6.1.6(2)
	5.SAR	Attached Report	

Note: Unless otherwise indicated, the measurements were made under the standard supply voltage (i.e 5.0V), and the standard ambient temperature (i.e 25 deg C).
