Declaration of Grant Power

The subject equipment operates in a duplexed configuration (25 watts) and a non duplexed configuration (31.5 watts). These are considered the rated power of the equipment and the Grant should list these values. Lab test report measured values of conducted power should not be used on the Grant.

Sincerely,

A handwritten signature in black ink that reads "Daryl G. Popowitch". The signature is written in a cursive, flowing style.

Daryl Popowitch
Regulatory Manager,
Engineering Project Manager
