Subject: FCC ID: BV8MBS700A100
Original submission
SkyMASTR 700 MHz LMR base station

ATTESTATION

§90.541 of the Commission's rules specify transmitter power limits for mobile terminals, portable terminals, and base stations.

Transmitters with low power channel capability listed in §90.531(b)(3), and §90.531(b)(3), have limitations of no more than 2 watts (ERP).

§90.545 of the Commission's rules, as referred to in §90.541, have further specification for base station power (ERP) and antenna height (HAAT) as related to distance, contour, etc.

M/A-COM, Inc. makes application for Grant of Equipment Authorization herein, with the understanding that at the time of site licensing, Commission rules governing base stations are to be applied and those power limitations of low power channel capability listed in §90.531(b)(3) and §90.531(b)(3) are applicable specifically to terminals.

Sincerely,

A handwritten signature in black ink that reads "Daryl G. Popowitch". The signature is written in a cursive, flowing style.
