TO: Federal Communications Commission  
Washington, DC 20554

Reference: M/A-COM's OpenSky™ Base Station

M/A-COM, a division of AMP Incorporated, is requesting that certain sections, exhibits and the like, to the attached submission be treated by the FCC as confidential information. The section that required confidentiality is for the most part all of the Section entitled Block Diagrams and Schematics and includes the following technical information:

**Description of Circuitry to Prevent Spurious Radiation:** 2 Pages, Section 5B of File

**BSC-1010 Base Station Controller Processor Board:** 47 Pages, Section X of File Drawing Number CTC-000056

**BSX-802 Base Station Transceiver Processor Board:** 33 Pages, Section X of File Drawing Number CTC-000124

**BSX-802 Base Station Transceiver Board:** 15 Pages, Section X of File Drawing Number CTC-00015

**BSX-802 Base Station Transceiver High Performance Synthesizer Board:** 7 Pages, Section X of File Drawing Number CTC-000561

**BSX-802 Base Station Transceiver Preselector/Reference Board:** 5 Pages, Section X of File Drawing Number CTC-000593 and HF00367

**HPA-875 Base Station High Performance Amplifier:** 2 Pages, Section X of File Drawing Number HE00356

**OpenSky Digital Base Station Manual:** 10 Initial Pages (not page numbered), 43 Pages (page numbered 3 to 46 to end), Section XI of File

The above aforementioned technical information which is explicitly characterized in the certification submittal, describes in detail how M/A-COM's product is built and its theory of operation. This level of technical information, if disclosed outside of the FCC, would cause irreparable harm to M/A-COM from a competitive standpoint.

Therefore, M/A-COM respectfully requests that the technical information listed herein and fully described in our submission attached hereto be treated as confidential information and not be disclosed outside of the FCC.

Sincerely,

Patricia L. Terilli  
CTS Coordinator
