Re: Application for Change in Identification

FCC ID:	BVCDRFIDUAPR
Form 731 Confirmation No.:	EA99493

Dear Sir or Madam:

Sensormatic Electronics Corporation is applying for change in identification per 47 CFR 2.933.

We plan to market a device produced by an OEM that we would like to market under our own model number and FCC ID. The OEM had previously received a grant for certification of the product. The OEM's FCC ID is HN2UAPRFID-24, grant date 03/21/2000.

Per 2.933, there will be no change in the design, circuitry, construction, or appearance; there are no user controls. The only change is the FCC ID. The external photos of the device, the label location and label sample are provided in the electronic attachments as required.

Should any additional information be required, feel free to contact me at umbdenstock@sensormatic.com, by phone or by fax per the numbers below.

Sincerely,

Donald J. Umbdenstock
Project Leader, Compliance Engineering
